

Ultraflex durable, printable flooring materials allow you to display custom messaging and graphics at your customer's feet, creating opportunities for brand awareness, experiential events, immersive environments, and so much more.

---

## Floorscapes® Clear Media 50 mil

Clear vinyl flooring substrate designed for large-format digital printers and engineered to provide exceptional image clarity and color accuracy. This material is available in a wood grain finish and can be applied with or without adhesives to a wide range of indoor applications including retail, business, museum, and events. The end lifecycle of Floorscapes can be returned to the buyer for repurposing into products such as acoustic panels.

---

Printability: Solvent | UV

## UltraCarpet® Extra

Durable white tufted pile carpet designed for digital printers. This material has a minimal ink drying time and is ideal for a wide range of indoor and short term outdoor flooring applications including lobbies, waiting areas, foyers, and tradeshow booths.

---

Printability: Solvent | Eco-Solvent | UV | Latex | Screen

## MatFlex® Plus

Non-slip certified substrate featuring a latex padded backing and a non-curl formula. This material has a thickness of 65 ml and is ideal for a wide range of indoor or short-term outdoor applications including mousepads, retail mats, and tabletops.

---

Printability: Solvent | Eco-Solvent | UV | Latex

## FloorFlex® Plus

Non-slip certified flooring substrate featuring a latex-padded backing and a non-curl formula. This material is ideal for a wide range of indoor or short-term outdoor applications including lobbies, waiting areas, foyers, tradeshow booths, and catwalks.

---

Printability: UV | Latex

## UltraCarpet® Pantone

Durable white tufted pile carpet designed for dye-sublimation printers. This material has a minimal ink drying time and is ideal for a wide range of indoor and short term outdoor flooring applications including lobbies, waiting areas, foyers, and tradeshow booths.

---

Printability: UV | Dye-Sub Direct | Dye-Sub Transfer

## AdventureScapes®

Durable 100% polyester substrate ideal for a wide range of indoor and outdoor applications including wayfinding, floor graphics and decals. This tear and wrinkle-resistant material features a R11 rated anti-slip embossment, adhesive backing, antimicrobial properties, and a quick-drying print surface that does not require lamination.

---

Printability: Solvent | Eco-Solvent | UV | Latex
